# SAKTHIVEL
RESUME

As a start in my career, I had worked as a front office assistant for 2 years. During this period, I progressed in handling walk-in clients and understanding their needs. Afterwards, I got an opportunity from another organisation and I joined there to upskill myself, leaving my current concern with good terms. After 2 years of work experience, I got an opportunity to work under the CCTV department from Infosys which seemed to be a good start for me to upgrade. In the meantime, I learnt stack developing software to make myself unique with a certain skill and now I am going to be working as a MERN stack developer in our company. I assure you that my deliverables will stand to uplift ourcompany's standards and growth.
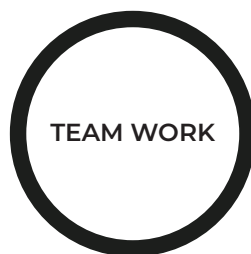

DESIGN & CODING — **CONCEPTS** — **DEDICATION** — **TEAM WORK** — **MANAGEMENT**

TECHNICAL SKILLS

HTML, CSS, JAVA SCRIPT, REACT, NODE JS, MONGO DB

HOBBIES

Swimming, Cricket, Listening Music, Watching Movies, Travelling
